About InnoPharm

After the successful completion of its inaugural edition, InnoPharm is stepping into its second edition with an expanded agenda, more specialized tracks, and an exciting lineup of new speakers. Taking place November 2-4 2026, in Boston, MA, this premier Innovations in Pharma R&D conference continues to bring together global leaders, researchers, and innovators to explore the latest breakthroughs in drug discovery, development, and emerging technologies.

Through insightful discussions, data-driven sessions, and global collaboration, InnoPharm-2026 redefines how science, technology, and innovation converge to create a healthier, more sustainable future.

At InnoPharm, we bring together the world's brightest scientific minds, research leaders, and technology pioneers to advance the next generation of pharmaceutical discovery and development. The conference serves as a catalyst for innovation — uniting academia, industry, and regulatory experts to transform ideas into real-world therapies that improve lives.

With additional sessions, workshops, and networking opportunities, InnoPharm-2026 offers attendees more ways to learn, collaborate, and showcase their work. Whether you are a scientist, industry professional, or innovator, this edition promises deeper insights, more interactive experiences, and a platform to connect with thought leaders driving the future of pharmaceutical research.
